

Designer Life Coaching Ltd

Features and Benefits of Coaching with Designer Life

1. Qualified and committed to self-development

Apart from qualifying as a Life Coach, I continue to upgrade my coaching skills and competences through reading books and networking with other Professionals in the field. I regularly attend seminars and workshops designed to keep me abreast of the coaching profession with its ever evolving procedures and practises. Learning is more than an experience; it is a way of life.

2. Associated to an organisation

I am a member of the Association for Coaching, and am also associated with International Coaching Achievers Network (ICAN) and connected with other leading Coaching companies, such as The Coaching Academy and Noble Manhattan.

3. Bespoke & customised service

Through the learning I am equipped with a wide range of coaching techniques and tools that yield measurable results. I can customise a package just for you. No two people will experience the same thing, because each coaching experience begins with a diagnostic process designed to identify your personal needs and challenges. Your coaching programme can then be put together to meet those needs so you can overcome your challenges and win in life.

4. I offer you a 14 day money back guarantee

I am so confident that you will benefit immensely from your coaching experience that I am prepared to give your money back, if you cannot see how you are progressing.

See Terms and Conditions

5. A package that suits you

Life coaching used to be the privilege of the very rich and famous and mainly in sport,, but today it is widely available to people who have extraordinary drive. I can design a package to suit your goals & I will always discuss your needs and then quote you fully on the best option and payment terms for you before commencing with any coaching sessions.

6. I offer a free initial consultation

I offer you a free, no obligation, initial consultation lasting approximately one hour. During that time you can expect:

- A brief diagnostic analysis of your needs, challenges and goals
- A full explanation of the coaching service and process
- A full quote on a coaching package to suit you

If you are happy to proceed with a coaching relationship, then a coaching agreement can be signed. If not I will never, ever pressure you to make a decision. Coaching never works unless the person being coached wants to make some specific and measurable changes.

7. Flexible payment

If you would like 12 sessions or more I offer 3 month payment term for your coaching experience. Once a suitable package has been agreed, you may be able to pay in instalments if necessary. You have choice of paying by cash, cheque or standing order.

8. Face to face, Telephone coaching or Skype

I offer face to face coaching mainly, but for those cases where this is impractical because of schedule or geographical obstacles, Telephone/Skype coaching may be an option.

9. I may provide reports and do research

Depending on which package you choose, I will do a brief report on your sessions as well as carry out necessary research for you in vital areas.
